FAREWELL TO 'FRISCO.

President Roosevelt Departs for the
Yosemite Valley.

San Francisco, May 15.—President
Roosevelt bade farewell to San Fran-
cisco at night, his last day, like the
others here, being so taken up that
it seemed to verify the simile remark
he made that the city of the Golden
Gate had given him everything except
sleep.

Early in the morning the presiden-
tial party left the Palace Hotel and
participated in the dedication of the
monument commemorating the vic-
tory of Commodore Dewey and his
fleet at Manila bay. Here the presi-
dent dwelt strongly upon the necessity
of a stronger navy and practical train-
ing at sea. Then a trip was taken
across the bay to Berkeley, the home
of the University of California,
where the president spoke at the com-
mencement exercises. The citizens
of Oakland next claimed Mr. Roose-
velt's attention.

The next trip was to Vallejo, where
the cornerstone of the Y. M. C. A.
building was laid. A trip was made
to the Mare Island navy yard, and the
evening was spent at the Union
League club banquet.

Shortly after midnight the party
left for the Yosemite valley.

SENTENCED TO PAY A FINE.

Federal Salt Company Assessed \$1,000
for Violating Sherman Law.

San Francisco, May 15.—The case
of the United States versus the Fed-
eral Salt company was finally ended
in the United States court by Judge
De Haven, who, in rendering judg-
ment on the case, sentenced the com-
pany to pay a fine of \$1,000. It had
pleaded guilty to a violation of the
provisions of the Sherman anti-trust
law.

Merrill Released on Bail.

New York, May 15.—Moody Merrill
has been released on \$1,000 cash bail,
furnished by himself. Merrill says he
has sent money to Boston through a
friend with which to settle his ac-
counts there.

MURDER AND SUICIDE.

Supposed Insane Man Kills His Step-
son and Himself.

North Yakima, Wash., May 15.—
Harry Warner shot and killed his six-
year-old stepson Thursday and then
committed suicide. He shot the boy
while he was asleep and then pulled
the trigger of the shotgun with his
toe, blowing the top of his head off.
It is supposed the man was insane.

STRIKE AVERTED

TRAINMEN'S REPRESENTATIVES
SIGN AGREEMENT WITH RAIL-
ROAD OFFICIAL.

DOUBLE-HEADING ALLOWED

ONE DOUBLE-HEADER TO TWO
HUNDRED SINGLE TRAINS
EAST OF MINOT.

OBTAIN INCREASED WAGES

ALL CLASSES OF EMPLOYEES ARE
GRANTED AN ADVANCE IN
THEIR SALARIES.

St. Paul, May 15.—There will be no
strike of the Great Northern train-
men and conductors.

A settlement was signed at 5:40
o'clock last night by General Manager
Ward and the representatives of the
Trainmen's unions which terminated
all trouble.

The terms of the agreement are:
Double-heading will be allowed east
of Minot to the extent of one-half of
one per cent, or one double-header
train to each 200 single engine trains.
West of Minot the practice will be al-
lowed to the extent of 2 3-10 per cent.
Helper service is to be included in the
percentage of double-headers allowed,
which will somewhat decrease the total
percentage.

The salary increase, which was not
opposed by the road, but granted will-
ingly, is as follows:

Yardmen, all over the system, are
to be given the Chicago scale, an ad-
vance of one-half cent an hour over the
St. Paul scale.

Through freight conductors will re-
ceive \$3.50 a day, an advance of 5
cents a hundred miles over the 15 per
cent increase asked by the men, and a
total increase of 50 cents a day. Total
freight brakemen will receive
\$2.33 a day, or 3 cents a hundred miles
over the 15 per cent increase asked,
and a total advance of 33 cents over
their former wages.

Local freight conductors will re-
ceive \$3.80 a day, an increase slightly
over the 15 per cent raise request-
ed. Local freight brakemen will re-
ceive \$2.55 a day, or the same propor-
tionate advance as given the conduc-
tors in the same class.

Exceeds Advance Requested.

Mountain division freight conduc-
tors will hereafter receive \$3.90 a day,
and freight brakemen in the same
class \$2.70, which is much in excess
of the 15 per cent advance requested.
Passenger conductors' salaries will
be increased under the new schedule
from \$125 to \$140 a month, or an in-
crease of 12 per cent. Baggage men
will receive \$80 a month, which is al-
so a 12 per cent increase. Passenger
brakemen's wages have been advanced
to a scale running from \$67.50 to \$75.
Men working east of Minot, in the em-
ploy of the company less than a year,
will receive the minimum, while the
employees west of that point will re-
ceive \$70. All passenger brakemen
will be paid \$75 after they have been
with the company one year.

The advances in salary for all em-
ployees will date back to March 1, the
day that the Northern Pacific men re-
ceived their increase in pay.

The signing of the agreement in-
cluding these terms was the culmination
of the good work of Minneapolis and
St. Paul business men in bring-
ing about a resumption of negotia-
tions when it looked as if the double-
header dispute was about to end in
a general strike.

With the signing of the terms of
settlement a great load of anxiety was
lifted from the shoulders of the 1,500
trainmen employed by the Great
Northern system and brought much
comfort to the officials as well as to
business interests throughout the
Northwest. Trainmen, grand officers
and officials of the company expressed
satisfaction as to the terms of the
settlement.

WILL RESUME OPERATIONS.

Deering Plant Reaches an Agreement
With Employees.

Chicago, May 15.—The Deering
plant of the International Harvester
company, which has been closed ten
days on account of a strike, will re-
sume operations today. An agree-
ment between the employees and the
company was reached last night, the
officials of the Chicago Federation of
Labor being largely responsible in
bringing about this result. A secret
vote resulted in 525 in favor of re-
sumption and 295 against. According
to the agreement all striking employ-
ees are to be reinstated, but the nonunion
men who have been employed by the
company are to be retained. With the
exception of the right to organize
which is agreed to by the company all
the demands of the men are left to
arbitration.

WANT INCREASED WAGES.

Freight Handlers Make Demands on
Every Road in Chicago.

Chicago, May 15.—The Freight
Handlers' union of Chicago, with a
membership of about 2,000, has made

demands on every road in the city for
a 25 per cent increase in wages, effec-
tive June 15. Copies of the demands
were placed before the proper officers,
with the request that the demands be
granted or a conference arranged by
June 1.

More Favorable to the Company.
Meridian, Miss., May 15.—The strike
situation on the Mobile and Ohio is
more favorable to the company. Local
trains were sent out during the
day in both directions with nonunion
crews.

CONDITIONS VERY STRAINED.

Feeling of Anxiety Over Strike Situa-
tion at Omaha.

Omaha, May 15.—Labor conditions
in this city have grown very strained
during the past twenty-four hours
and a feeling of anxiety over what
may occur at any moment is felt by
all classes of people. During the day
there have been a number of small
riots in which no less than four men
have been injured. Half a dozen ar-
rests have been made during the day
and at night there is a feeling of great
unrest.

As soon as the methods of the strik-
ers became known, special sheriffs to
the number of fifty were sworn in and
stationed along the intersections most
traveled in the outskirts. At about
the same time fifty special policemen
were put on duty, part of them mount-
ed and given instructions to co-operate
with the deputies. With this increas-
ed force the officers kept the strikers
on the move during the latter part of
the day.

Last night the strikers held a mass
meeting behind locked doors and they
claim that their places shall not be
filled by nonunion men.

AGAINST CITIZENS' ALLIANCE.

Injunction Obtained by Labor Unions
of Denver.

Denver, May 15.—The first injunc-
tion as a result of the labor troubles
here was issued by Judge Mullins of
the district court at the instance of
the joint executive committee of the
labor unions against the Citizens' Al-
liance. It is practically the same as
issued by the district court in Omaha
against the Business Men's associa-
tion of that city. It restrains the al-
liance from intimidating or threaten-
ing members of labor unions; impos-
ing fines upon its members for employ-
ing union labor; restrains it from
attempting to bribe labor union mem-
bers or officers and from influencing
landlords to evict unions from their
meeting places.

The alliance officers declare they
will apply to the United States court
today for an injunction against the
unions restraining them from inter-
fering in its affairs.

Seek to Renew Negotiations.

Chicago, May 15.—The executive
committee of the Laundry Employers'
association has sent a letter to the
Laundry drivers' association looking
toward a renewal of negotiations as
to drivers' wages. What action to
take the union officials were unde-
cided.

LORENZ' METHOD DISCUSSED.

Resolution of Thanks to the Austrian
Fails to Materialize.

Washington, May 15.—Constituent
societies of the congress of American
Physicians and Surgeons have prac-
tically concluded their sessions, al-
though two or three of them, by rea-
son of the length of their programme,
will extend their work a day.

Much interest was manifested in the
proceedings of the American Ortho-
pedic association over the discussion
of Dr. Lorenz' method of treating hip
dislocation, etc.

Dr. H. P. Bradford of Boston was
expected to offer resolutions thanking
Dr. Lorenz for visiting the United
States and demonstrating his methods.
But such resolution it was thought
might induce criticism from members
of the association who do not approve
wholly of the Lorenz system.

One of the important subjects con-
sidered by the association was the
treatment of curvature of the spine.
Dr. Compton Reilly of Baltimore read
a paper on the subject and then con-
ducted a brief clinic during which he
demonstrated the operation of a me-
chanical device intended to correct
spine curvature, one of his own pa-
tients being the subject of the clinic.
The society decided to hold its meet-
ing next year in June in Atlantic City.

Officers were elected as follows:
President, Dr. Reginald Sayers, New
York; first vice president, Dr. Goldth-
waite, Boston; second vice president,
Dr. G. G. Davis, Philadelphia; secre-
tary, Dr. John Didion, Chicago; treas-
urer, Dr. E. G. Brackett, Boston.

SEVERAL INJURED.

Premature Explosion During Salute
to G. A. R. Commander.

Marietta, O., May 15.—While the
Marietta college squad was engaged
in firing a salute in honor of Com-
mander-in-Chief Thomas A. Steward,
of the G. A. R., on his arrival here,
a premature explosion occurred. Wal-
ter Kelly, a student, had his right
hand blown off and three ribs frac-
tured. Several others were slightly
injured.

CHILDREN CREMATED.

Two Little Boys Perish in a Fire at
Pittsburg.

Pittsburg, May 15.—The residence
of James Bell, in the Lawrenceville
district, was burned to the ground at
night and his two children, William,
aged eight years, and Edward, aged
fifteen months, were burned to death.
It is not known how the fire originated.

STREET CARS COLLIDE

DELEGATES TO ROYAL NEIGH-
BORS' CONVENTION INJURED
AT INDIANAPOLIS.

THREE ARE BADLY HURT

Mrs. Ada Lawson of Anoka, Minn.,

Mrs. Josie Briggs of Sheldon, Ia.,
and Miss Winnie Fielder of Peoria,
Ill., Supreme Recorder of the Royal
Neighbors, Are Seriously Injured.
Four Other Iowa Women Bruised.

Indianapolis, May 15.—Two street
cars, the second and third in a series
bearing officers and delegates of Royal
Neighbors' convention, collided at
Seventeenth avenue and Seventh
street.

A number of women were more or
less injured, three of them seriously.
They are: Miss Winnie Fielder, su-
preme recorder Royal Neighbors,
Peoria, Ill., bruised about body; Mrs.
Ada Lawson, deputy organizer, Anoka,
Minn., hurt about back of head and
suffering from shock; Mrs. Josie
Briggs, Sheldon, Ia., compound frac-
ture of the right leg.

The front car suddenly stopped at a
crossing and the rear car crashed
into it. The ladies in the rear car
were hurled forward, many of them
being bruised about the faces and
chest by striking the backs of for-
ward seats. Mrs. Ada Lawson of
Anoka, Minn., was carried to a house
near the accident, while the other in-
jured were taken to their hotels. The
front end of the rear car was crushed.
Among the injured are: Mrs. Ann
Bear, Webster City, Ia., slightly hurt
about head; Miss Sadie Householder,
Sheridan, Ia., slightly injured; Mrs.
Clara Zook, Brookfield, Ia., slightly
bruised; Mrs. Mabel Hamilton, North-
wood, Ia., slightly bruised about face
and body.

TWO PERSONS KILLED.

Spreading Rails Cause a Bad Wreck
in Ohio.

Washington Courthouse, O., May 15.
—The Cincinnati and Pittsburg ex-
press on the Midland division of the
Baltimore and Ohio Southern was
wrecked five miles east of here. Two
persons were killed and several se-
riously injured.

The dead are: Engineer John May
and Fireman J. A. Leighton.

Five passengers were badly injured
and all the other passengers were
severely shaken up and some sus-
tained painful bruises.

The accident was caused by spread-
ing rails.

The train was running about forty-
five miles an hour when it left the
tracks.

The engine rolled down a small em-
bankment. The cars left the track,
but none was overturned.

PASSENGER TRAIN WRECKED.

One Man Killed and Twenty Others
Injured.

Hot Springs, Ark., May 15.—The out-
bound passenger train on the Choctaw,
Oklahoma and Gulf railway
jumped the track on a fifteen-foot em-
bankment about a mile west of the
city, wrecking all the cars except the
Pullman sleeper and carrying an iron
bridge down into Gulpha creek. One
man was killed and at least twenty
others injured, one fatally and several
seriously.

Joseph Riley, fireman, was killed,
and Joseph Ryan was fatally injured.

Several delegates to the state con-
vention of the Junior Order of Ameri-
can Mechanics were passengers and
many of them sustained injuries.

It is said the accident was due to
the recent heavy rains having loos-
ened the embankment, causing the rails
to spread.

DESTRUCTIVE FIRES RAGING.

Property Loss in Pennsylvania Will
Be Very Heavy.

DuBois, Pa., May 15.—Destructive
forest fires are prevailing in the south-
ern end of this county. At Curry Run
it is estimated that 8,000,000 feet of
timber has been rendered worthless.
Two county bridges and four and one-
half miles of railroad track leading
to the woods have been destroyed. A
report at night states that the flames
are gaining hourly. At Deer Creek a
large tract of valuable timber has been
burned over and serious loss incurred.
The damage already done will foot
up into hundreds of thousands of dol-
lars. Hundreds of men are engaged
in fighting the flames. Fires are re-
ported from many other sections of
the country.

ITALIAN SHOOT A MINER.

A Mob Tries to Take Prisoner Away
From the Officers.

Trinidad, Colo., May 15.—An Italian
coal miner giving his name as August-
in Garibaldi, shot and killed another
miner in their cabin at Majestic. He
then fled, but was captured by a
sheriff's posse. While returning to
Majestic with their prisoner, the posse
was met by a mob of miners who tried
to take Garibaldi away from the offi-
cers. A running fight ensued and
three of the officers, securing a team,
drove to this city with the prisoner.
It is not known whether any of the
mob was injured or not. A telephone
message from Majestic says a mob is
forming to come to Trinidad to lynch
Garibaldi. The jail is heavily guarded.

WEALTH FOR LAURA BIGGAR.

Pittsburg Theater Proprietors Settle
With the Actress.

Pittsburg, Pa., May 15.—By an
agreement reached between Attorney
E. G. Ferguson of this city and law-
yers representing Miss Laura Biggar,
the actress, Peter Q. McNulty and R.
M. Gulick, proprietors of the Bijou
theater in this city, will pay Miss Big-
gar for the interest she had under
the will of the late Henry M. Bennett,
in the property on Penn avenue and
Sixth street, occupied by the Bijou
theater and office buildings. Under
the terms of the agreement Miss Big-
gar will receive in cash from the sale
of the property \$480,000, an apartment
house in New York valued at \$40,000
and personal property estimated to be
worth \$100,000, making a total of
\$620,000, besides an annual allowance
for life of \$1,800. The settlement
closes one of the most sensational es-
tate fights which this country has had
in years.

NORTHERN SECURITIES CASE.

Attorney General Will Try to Have
the Hearing Advanced.

Washington, May 15.—Authoritative
announcement was made during the
day of the intention of the attorney
general to enter a motion in the United
States supreme court next Monday
to advance the hearing in the North-
ern Securities case, the appeal in

which was "ocketed" recently in that
court. It is probable the court will
grant the motion, but it is not likely
the court will take action on the mo-
tion before the sitting June 1, when
the court will be in session for the
last time during the present term.
Hence there is no possibility for the
argument of the case before the court
reconvenes Oct. 1.

As unassigned cases are never
heard during the first week of a term,
the earliest probable date for the hear-
ing is Oct. 19.

CATHEDRAL DAMAGED.

Supposed Incendiary Blaze in Large
Denver Edifice.

Denver, May 15.—At midnight, fire
was discovered breaking through the
roof of St. John's cathedral, the large-
est Protestant Episcopal church in this
city.

At 1:36 a. m. the interior of the
cathedral was entirely consumed.
The loss is estimated at \$100,000, al-
though the edifice cost much more
than that. The insurance is \$80,000.
The fire is thought to be of incendiary
origin.

Calve Takes Overdose of Aconite.

Paris, May 15.—The Petit Journal
says that Emma Calve accidentally
poisoned herself last night by taking
an overdose of aconite as a preventive
for the grip. Prompt action saved
her life, but she was unable to appear
at last night's performance.

Sunflower Seed.

In Russia sunflower stalks gathered from the fields and dried in piles have entirely replaced firewood. In fact, these stalks are preferred even to pine wood, producing a quick and hot flame fire. About 2,000 pounds of such firewood are gathered from an acre of land, thus adding a great boon to a district where wood is scarce. Sunflower shells are also used for heating purposes not only in private houses, but in large factories as well. They are burned in ovens specially prepared for their consumption.

A Town Under One Roof.

What would the ordinary woman say to a family that used every day 20,000 napkins, 12,000 towels, 3,800 sheets, 20,000 plates and 18,000 knives and forks? This is what is required by one of the large hotels in New York, at which a man cannot live for much less than \$8 a day. The hotel will accommodate 3,000 people, besides 1,500 servants to wait on them.—Youth's Companion.

COMING OF MISS ELLA RICHARDS

She Will Appear in Piano Recital in this City on Friday Evening, May 29, and It will Be Great Event Musically.

The following letter has been received by Mrs. W. H. Gemmell from Mrs. Briggs, president of the Schubert club, of St. Paul, a club of over 300 members:

St. Paul, Minn., April 21, 1903.

MY DEAR MRS. GEMMELL:—

Since writing you I learn that your club is contemplating an artists recital by Miss Ella Richards. I am so glad you are thinking of this, and since you may not have heard Miss Richards within the last year, you will surely not think me intruding if I venture to give you the verdict of musicians of our city on her progress during the last year or two. She gave a recital before the Schubert club in November and furnished one of the best programs of the year—an occasion to do honor to the club, and more than that, to our city. She has grown beyond the bounds of the amateur or even the ordinary professional, and is indeed the artist.

The playing of Tschaiowsky concerts was really masterly, and the whole program was a delight to a critically appreciative audience. The interpretations are dignified and scholarly and the technique more than adequate. She is moreover progressive and never flags in her enthusiasm, nor in her individual efforts toward advancing her chosen art. I do so hope you may engage her for I am sure your people could not fail to appreciate and enjoy her real merit as an artist. She would be a credit to your club, as she was to ours, to her friends who may live there and to the cause we all stand for. Moreover, there would come the satisfaction of recognizing the prophet even within our own country. Believe me,

Sincerely yours,

FLORENCE L. C. BRIGGS.

Concerning the playing of the Tschaiowsky concert above mentioned, a notice in the St. Paul Globe speaks in part as follows:

Miss Richards' playing last night was more than a mere triumph over technical difficulties. The savage intensity that characterizes all Russian compositions, whether literary or musical, Miss Richards makes dominant in her interpretation.

Concerning the same rendering the St. Paul Dispatch says among the things in praise of Miss Richards:

Her technical finish and her whole-souled entrance into the spirit of the work marked Miss Richards as a virtuoso, a pianist who sends her thoughts ahead of her fingers. The big effects were all there, but nothing of the subtler Tschaiowsky was sacrificed to them. The rhythms stamped themselves unforgettably upon ones' memory, so beautiful and so strongly marked were they and the perfect spontaneity which especially characterizes the first movement was preserved. Miss Richards was assisted in the concert by Franklin W. Krieger. Both Miss Richards and Mr. Krieger have studied in the Leschetizky school of piano playing, Miss Richards with the master and Mr. Krieger with his famous pupil, Stepanoff. The burden of the interpretation fell on Miss Richards and the sympathy displayed by the tender little pianist in the fiery exaltation of Tschaiowsky stirred the audience to a fine enthusiasm.

Miss Richards will appear in concert recital in Brainerd, Friday evening, May 29, at the First Congregational church. It has been said by a prominent member of the Ladies' Musical club, under which auspices the pianist comes to Brainerd, that to hear a recital by Miss Richards is worth a term of lessons to any student of the piano.

The tickets are now on sale at H. P. Dunn & Co.'s or by members of the club.

Ginseng as a Remedy.

No matter what the disease, the first thing the Chinaman thinks of is ginseng. His faith in his medicine helps to cure him beyond any doubt. Given such trust in any physician or any drug, there is no question but what it would reduce our mortality record. If a man wants to sober up after a night of feasting and wines, the remedy is ginseng. If he has used too much the opium pipe, give him ginseng. If the baby's stomach is out of order, put ginseng into its food. If the appetite is gone, it calls for the same drug. The rich season their food with it as we would with pepper, believing that it aids digestion. The aged Chinaman uses it in the belief that it keeps him from growing feeble.—Medical Talk.

PUZZLES IN SPELLING.

They Are Liable to Catch You in a Most Mysterious Way.

What queer quirks a good and obedient mind will sometimes take! A clergyman of exceptional scholarly attainments tells me that he once wrote what he at the moment conceived to be the word "righteous." The nature of his calling ought to suggest that of all words this one should be among the most familiar to him, and indeed it was. Yet when he had written it it did not look right. After puzzling over it for some time he concluded that it must end with "ious" instead of "eous," as he had written it. Finally in a mental muddle he went to his unabridged dictionary, but was amazed at finding no such word there. Deferring further search for the nonce, he completed his letter and then opened the dictionary again. This time he found the word all right and in its proper place, a fact which, he said, would have been a warning to him if he had been a drinking man.

The explanation of it was that by some unaccountable freak he had got it into his noddle that it was spelled "ritcheous." He had spelled it so in his letter and had of course looked on the wrong page of the dictionary for it in the first instance. By the time he looked again the crochets was out of his mind, and he knew how to spell the word as well as Webster did.—Brooklyn Eagle.

Scholarly Men and the Pulpit.

If scholarly men more and more reject the church as the means by which they will influence opinion and conduct and replace it by educational, editorial and administrative agencies, the next century may be altogether guided in its intellectual decisions and in those of its actions which depend on intellectual judgments by forces outside the church. Our grandfathers looked to the minister for advice not only upon religious beliefs and moral practice, but also upon most matters outside their own direct acquaintance. The minister prescribed for the education of sons, solved social problems and acted as the source and judge of truth in matters of general knowledge. Our sons seem likely to regard the ministry as a body of men fitted to deal with men's religious welfare, but less fitted to be generous mentors in others. The direction of the people in other than purely religious activities may pass wholly out of the hands of the church.—Professor E. L. Thorndike in Century.

A Tragic Wedding Ring.

A tragic story of a forgotten wedding ring is told in the "Lives of the Lindsays." He should have been at church when Colin Lindsay, the young Earl of Balcarrais, was quietly eating his breakfast in nightgown and slippers. Reminded that Mauritla of Nassau was waiting for him at the altar, he hurried to church, but forgot the ring. A friend present gave him one, which he, without looking at, placed on the bride's finger.

After the ceremony was over the countess glanced at her hand and beheld a grinning death's head on her ring. She fainted away, and the omen made such an impression on her that on recovering she declared she was destined to die within a year, a presentiment that probably brought about its own fulfillment, for in a few months the careless Colin was a widower.

Irritation and Pain.

A sharp definition should be drawn between irritation and pain. Irritation is not pain, but only a frequent cause of it. Thus a crumb lodged in the larynx near the vocal cords produces violent irritation and prolonged coughing, which often result in actual pain. So, too, a speck of dust in the eye sets up violent irritation and inflammation, followed by acute pain. Of the surface of the body the finger tips and the end of the tongue are most sensitive—for instance, a burn on the fingers is much more painful than one on the back would be, while one on the tongue would be more painful still. Deep wounds are not painful, as a rule, save as regards the surface injury.

Trees of Europe and North America.

Forest vegetation is much richer in North America than in Europe and comprises 412 species, of which 176 are native to the Atlantic region, 106 to the Pacific, 10 are common to both, 46 to the Rocky mountain region, and 74 are tropical species near the coast of Florida as against 158 species in Europe. Six North American species of forest trees—the Judas tree, persimmon, hackberry, plane tree, hop hornbeam and chestnut—are also indigenous in Europe, all now growing there naturally south of the Alps.

Nature's Toilet.

The West Indian negro need not buy soap. He picks a bulb from the "soap tree" in the jungle, which makes a beautiful lather.

If he wants a shave, he uses a piece of sharp cocoonut shell or broken glass and it answers as well as a razor.

To clean his teeth he picks a twig of "chewstick," which is better than the best camel's hair brush and dentifrice.

The Correct Reply.

At an examination held at the agricultural college the question was put, "When is the best time to sow barley?" The "examinee," a sharp country lad from the district of Altenburg, promptly replied:

"Three days before a gentle rain, sir."—From the German.

THE MODERN SALESMAN.

He Realizes the Necessity For
Correct Dress in Business.

It has become the unwritten but
none the less stringent law that young
men shall dress well and neatly during
business hours. In many of the large
banks and financial institutions
none of the clerks is permitted to go
coatless, and in the mercantile estab-
lishments where salesmen are em-
ployed "loud" attire is actually dis-
couraged. The old time salesman
gloried in his flamboyant cravats and
shirts, his diamonds and his peculiar
clothes. His capital in trade consisted
of a flashy appearance, vulgar stories,
a constitution that would stand intoxi-
cating liquor and an unlimited amount
of cheek. He did not have to know
anything about the goods he sold, ex-
cept in a general way. He slapped
men on the back, took them out to din-
ner, got drunk with them and then
booked their orders. The modern sales-
man is a well educated, neatly dressed
gentleman who knows all about the
goods he sells. He is never called upon
to drink, he never needs to dine out,
he trades on honor and brains, and his
customers are men who only admire
men who know as much as or more
than they do about their business.
Dress plays the most important part in
the game of commerce, no less with the
salesman than it does with the man-
ufacturer, the mill man, the banker
or the financial man. They all dress
to impress their fellow men favorably.
—C. M. Connolly in Success.

Got the Oysters.

A captain of a Massachusetts reg-
iment, stationed in Washington at the
time of the civil war, was noted for his
love of good things to eat and one day
dispatched one of his soldiers, a man
named Bailey, to Alexandria to get
some fresh oysters, giving him instruc-
tions not to return without them. The
man started, and no more was seen of
him for nine days. The Washington
Times prints the story of his return:

After a lapse of nine days Bailey
came into camp leading a train of four
horse wagons, loaded with oysters.
Approaching and respectfully saluting
the amazed captain, Bailey said:

"Here are your oysters, captain.
Couldn't find any in Alexandria, so I
chartered a schooner and made a voy-
age to Fortress Monroe and Norfolk
for them. There are about 200 bushels.
Where do you want 'em?"

Bailey did really make the trip, hired
his men and sold oysters enough in
Georgetown before "reporting" to pay
all expenses and leave him a profit of
about \$100. The 200 bushels were di-
vided among the members of the reg-
iment, and Bailey returned to his duty.

Paper Making and the Egyptians.

The art of paper making is almost
prehistoric. It is believed that the
Egyptians invented the first crude
process. This is shown in the name
itself, which is derived from the word
papyrus, a reed which grows in Egypt
and other warm countries.

The ancient Egyptians made their
primitive paper from this plant by tak-
ing the smooth, fibrous layer between
the rough outer bark and the inner
flesh of the reed. This they dried and
glued together in long rolls, which
served as a means to convey their
thoughts in hieroglyphics. This pro-
cess has been so improved upon during
the succeeding ages that today the
most perfect paper can be made from
the meanest substances.

Home Treatment.

In Ohio, as in several other states,
persons condemned to death are taken
to the state capital for execution.
Recently in the Greene county court
a jury was being chosen to try a murder
case.

One member of the panel had been
asked the usual questions and had given
satisfactory answers until the law-
yer for the defense inquired:

"Do you believe in capital punish-
ment?"

"No, sir," was the prompt reply; "I
believe in hanging them right here at
home."—What to Eat.

Caged Birds Live Longest.

Many people declaim against the
cruelty of keeping birds in cages, but it
is a well proved truth that cage birds
live about six times as long as a wild
bird, and the bird invariably becomes
so fond of its owner and its surround-
ings that when the cage is thrown open
it will not fly away. It suffers so little
from solitude that if a prospective
mate is introduced it hits her on the
head at first for her impudence in dar-
ling to intrude into a private apart-
ment.

Bird Superstitions.

According to a superstition which
holds sway in some parts of Ireland,
the sedge warblers possess the souls of
unbaptized babes and sing their sor-
row at the midnight hour, while the
linnet, yellow hammer and blue jay
sing their plaintive and tender songs to
remind us they are souls of departed
friends not yet relieved from purga-
torial pains. The bittern is their her-
ald at night.—Irish Times.

A Sermon on Money.

"No, my son," said the Billville par-
ent; "money doesn't bring happiness.
It only pays house rent and the gro-
cery bill and makes the ballist and the
bill collector respect us six days in the
week while the parson gives us the
hallicula smile on Sunday."—Atlanta

**DETECTIVES BELIEVE INFERNAL
MACHINE WAS MADE IN THE
WINDY CITY.**

HAD PLANNED A SURPRISE

New York Officers Disappointed in
Their Expectation of Catching the
Maker of the Device by Which the
Umbria Was to Have Been Destroy-
ed—Mysterious Man May Have
Wrecked the Naronic.

Chicago, May 15.—Working on what
they believe to be positive informa-
tion that the infernal machine found
on the wharf of the ocean liner Um-
bria was made on the West Side in
Chicago, police officials are hopeful
that they will be able to find the man
Russell or Rosseau, who made the
machine.

George W. McClusky, chief of de-
tectives of New York, and Detective
Sergeants Funston and Carey of the
same city have reached Chicago in an
endeavor to surprise the maker of
the machine, before it became known
here that there was a clue leading to
this city. In this they were disap-
pointed.

Chief McClusky communicated with
Lieutenant Rohan and then made an
investigation personally. He is con-
fident that the infernal machine was
made or at least completed in the
rooming house at 287 Washington
boulevard, kept by Mr. and Mrs.
Harry Ehlen, though he is doubtful if
the plot was thought out in Chicago.
After making a hurried investigation
here Chief McClusky left for New
York.

Detectives Carey and Funston had
a long conference with Rohan, whom
they informed in their opinion Russell
and Rosseau are the same man. They
believe after the completion of the
machine Russell went to New York,
and may still be in that city. They
have information he had been here
and are endeavoring to learn how long
he had been in Chicago before taking
rooms at Mrs. Ehlen's. The detec-
tives thought so complicated a piece
of work as the infernal machine was
shown to be could not have been com-
pleted in seven days and believe its
beginning was at some place other
than the Washington boulevard
boarding house.

Mrs. Perkins, who up to three
years ago had the premises at 285
Washington boulevard, which is a
portion of the block occupied by 287,
said that a man named Russell three
years ago occupied some of her rooms
and disappeared in a mysterious man-
ner. After he had gone she found
three sticks of dynamite and called
in the police, who took them away.

WRECK OF THE NARONIC.

Vessel Lost on the Atlantic Ten Years
Ago May Have Been Blown Up.

New York, May 15.—Among the ef-
fects of the man who sent the infernal
machine to the Cunard line dock last
week was a piece of paper on which
was written in French:

"The destruction of the Naronic was
complete. Mr. Lebrun, who made the
box, has this moment gone to Chi-
cago."

The Naronic left Liverpool on the
morning of Feb. 11, 1893, with 4,000
tons of freight, a crew of fifty-five
men and fifteen passengers, who had
gone to England on the previous trip
in charge of a cargo of cattle. She
was never seen after she left the Mer-
sey, and to this day no word of her
has reached the owners of the line.

DUEL TO THE DEATH.

Policeman and Merchant Engage in
Fatal Combat.

Kansas City, May 15.—George E.
Spencer, a clothing merchant, who
came here recently from Birmingham,
Ala., was shot and killed, and Stephen
Flanagan, a policeman, was fatally
wounded in a pistol duel in a house
at 267 West Fourteenth street. Flana-
gan had gone to the house to arrest
Spencer. There were no witnesses to
the duel, and when people rushed to
the room, Spencer was dead and Flana-
gan was unconscious. By the side of
each man was a pistol. A half dozen
shots were exchanged. At the hospi-
tal it was said Flanagan could not
live.

Spencer had been visiting the family
of George W. Cox, a news agent. He
had been annoying women and children
in the neighborhood and complaint
had been made to the police. Spencer
had been requested to leave the house,
but refused to do so, and the Cox
family had moved out and left him in
possession. Flanagan lay in wait for
Spencer, and Spencer, who had armed
himself, expecting trouble, began
shooting as soon as he entered the
room.

KILLS HIS JAILER.

Alleged Bigamist Escapes From Pris-
on in Oklahoma.

Guthrie, Okla., May 15.—In escap-
ing from the county jail W. W. Mont-
gomery, an alleged bigamist, shot and
killed the jailer, Jerry Emerson, and
was in turn shot by Emerson's wife.
He got away, the extent of his injuries
not being known. Montgomery had
confessed to having three wives, one
married at Beatrice, Neb., one at
Seward, Okla., and the third in Iowa.
Two of the wives appeared against
him and he was in jail under indict-
ment in awaiting trial. He had just
completed his bath when he grabbed
the jailer's gun and killed him. He
also took Mrs. Emerson's revolver and
is therefore well armed. A posse is
in pursuit.

Stops Preaching of Mormonism.

New York, May 15.—Mayor Low has
stopped the preaching of Mormonism
in the streets of the city. All permits
formerly issued to Mormon elders to
preach in the streets have been re-
voked and no more will be issued.

Special Labor Commissioner Has a
Difficulty With Island Police.

Manila, May 15.—After a difficulty
with the local police, T. Thomas For-
tune, a negro, special labor commis-
sioner appointed by the war depart-
ment to visit the Hawaiian islands
and the Philippines, has left Manila
for home. A companion of Mr. For-
tune was arrested for a petty offense
and Mr. Fortune accompanied him to
the police station, where an argument
led to a fight, during which the po-
lice clubbed Mr. Fortune's secretary
and charged Mr. Fortune with resist-
ing officers of the law. Mr. Fortune
made counter charges, but later the
charges were withdrawn.

T. Thomas Fortune is a resident of

passengers were relieved of all their
valuables and the baggage and regis-
tered mail ripped open and rifled. It
is not known how much the lone
highwayman secured.

Four Men Rob a Saloon.

Uelper, Utah, May 15.—Four men
entered Rooney's saloon early this
morning and at the points of revolv-
ers held up the proprietor and a num-
ber of men in the place. William
Rooney, a boilermaker, was shot and
slightly injured. The robbers secured
between \$2,500 and \$3,000 and escaped.

NOTE TO THE POWERS.

Bulgaria Calls Attention to Turkish
Severities.

London, May 15.—The correspond-
ent of the Times at Sofia cables as
follows:

"Bulgaria has called the attention
of the representatives here of the
powers to the severities practiced by
the Turkish authorities in Macedonia,
the outrages committed by the armed
Mohammedan population and the se-
crecy of the proceedings of the Sa-
lonica courtmartial, which precludes
consular intervention."

A state of terror prevails in the
Djumbahla, Raslog, Melnik and Kara-
tova districts. Many villages are
blockaded by the Turkish troops and
some have been bombarded and
burned.

The Dashi Bazonks are assisting in
the work of destruction. Villagers
have been fleeing to the mountains.

"In spite of the denials of the
porte," cables the Constantinople cor-
respondent of the Daily Mail, "the
situation at Monastir is alarming.
Thirty-eight additional battalions of
Redifs (reserves) have been ordered
thither from Smyrna."

Sofia, Bulgaria, May 15.—It is re-
ported from Salonica that the French
and Russian consulates there have
been discovered to be undermined.
Large stores of dynamite have been
seized.

Athens, May 15.—A number of dyna-
mite bombs have been discovered here
in the cellar of a Bulgarian shop-
keeper. A number of Bulgarians have
been arrested in Greece.

IOWA POSTMASTER KILLED.

Accidental Explosion Blows Up Kos-
suth Postoffice.

Kossuth, Ia., May 15.—Postmaster
Hedges was killed by an explosion of
gunpowder said to be accidental,
which blew up the postoffice at night.
Hedges was alone in the building at
the time. Hedges had said that he
was held up and robbed of postoffice
funds several days ago. Officers of
the postoffice department are investi-
gating the case.

Waudby Is Well Qualified.

"The promotion of William S. Waud-
by to be commissioner of labor, if it
shall be brought about by the active
co-operation and demand of the labor
forces, will be strictly in keeping with
the civil service principles of which
the president is a well known advo-
cate," writes a Washington member of
the typographical union, of which or-
ganization Mr. Waudby is also a mem-
ber. "Mr. Waudby has been a special
agent of the bureau of labor for about
eight years and is thoroughly familiar
with the problems presented. We, as
workmen, want a commissioner of
labor who will be to his peculiar field
what the commissioner of Indian af-
fairs is to the Indians, what the com-
missioner of pensions is to the pension-
ers, what the commissioner of pat-
ents is to the inventors, what the
commissioner of the general land of-
fice is to matters pertaining to public
lands, what the commissioner of edu-
cation is to education—a man interest-
ed in the particular work covered by
his sphere of action. We ought to have
a commissioner of labor who is devoted
heart and soul and mind to the in-
terests of labor, and Mr. Waudby has
the ability, the experience and the
honesty to fill the office capably and
acceptably to the only interests which
should be consulted as to this par-
ticular appointment, the wage earners
of the country."
